Announcement Content	
Explanations	

As a result of the evaluations regarding the foreseen battery cell production investment in Ankara by Ford Motor Company ("Ford") and LG Energy Solution Ltd. ("LGES") with the participation of Koç Group, it has been concluded that, considering the current pace of electric vehicle adoption, the timing is not appropriate for a battery cell investment, and hence the Memorandum of Understanding (MoU) mentioned in our announcement dated 21.02.2023 has been revoked.

Ford and Koç Holding will remain committed to support electric vehicle production at Ford Otosan's Kocaeli Plant and will evaluate potential battery cell investments in the future in line with the dynamics of the electric vehicle market.
